DISCIPLINE POLICY

Goal

The goal of the Bluffton-Harrison MSD childcare discipline policy is to provide a positive environment where students are expected and encouraged to respect others, the property of others, and themselves. Our policy is driven by the belief that the purpose of education is to prepare our students for life, and exercising self-control is a key ingredient to a successful future.

Definition

Discipline involves the establishment of guidelines for acceptable student behavior. These guidelines encourage students to use self-control in following the procedures that have been established. It also includes administering appropriate consequences to students when they choose not to follow procedures and giving encouragement to students when they do follow procedures.

Student Responsibilities

Student conduct is expected to reflect respect and consideration for the personal and property rights of others, as well as an understanding of the need for cooperation with all members of the school community. Specific student responsibilities include, but are not limited to:

1. Accepting responsibility for one's behavior.
2. Demonstrating a positive attitude by following the directions of teachers and staff members.
3. Respecting the rights and personal property of others.
4. Respecting the authority of all childcare personnel.
5. Helping to maintain the facility.
6. Following the lifelong guidelines and life skills.

Consequences

Childcare employees may find it necessary to discipline students when their behavior interferes with the safety of anyone in attendance. Any of the following consequences may be utilized dependent upon the severity of the behavior:

- A discussion of the behavior with the child to redirect the behavior in an appropriate manner.
- A brief time away from normal activities or a specific activity (5 - 15 minutes).
- Time away from normal activities or a specific activity for a day.
- An in-program detention.
- A suspension from childcare.

As per BHMSD School Board Policy JQ-R: Written behavioral guidelines shall be established and/or approved by the school and provided to the parent(s)/guardians(s) when the child is enrolled in the childcare program.

Staff members of the childcare program shall be responsible for supervising and monitoring each child's behavior and reporting any problems to the parent(s)/guardians(s). If behavioral problems are persistent or severe, the child may be terminated from the program. Parents must be notified of the child's dismissal from the childcare program.

Communication

Bluffton-Harrison MSD believes that a cooperative effort must exist between childcare providers and parents in providing the best possible care for children. Communication is a key component in making this working relationship effective. Therefore, when questions arise, please feel free to call the childcare director for an appointment. You may also email the childcare director anytime at jmoser@bhmsd.org.

BHMSD Childcare Program **Healthcare Statement**

The Bluffton-Harrison Metropolitan School District (BHMSD) Childcare Program will make every attempt to provide trained healthcare personnel for medical emergencies outside of the school's calendar days (E.g., Parent/Teacher Conference Days, Fall Break, Christmas Break, Spring Break, Summer Vacation, and other days identified by Bluffton-Harrison M.S.D.). In the case that no personnel can be provided and emergency situations arise, the BHES staff will immediately call emergency personnel (911) and notify parents of any emergency situations as soon as possible. Expenses encumbered from emergency measures will be assumed by the parent/guardian. Parent/guardian(s) of children with diabetes or complex care requirements will coordinate with staff an appropriate plan regarding medication administration, emergency supplies, and procedural and/or treatment needs.

BHMSD Childcare Program

Service Charges

The BHMSD Childcare Program will work with families to meet the needs of all students. Parents will be charged the typical fee for the general needs of their child at childcare. These fees include a snack. Additionally, the BHMSD Childcare does participate in the Summer Free Lunch Program held at BHES which provides a free lunch for all children of the Bluffton-Harrison school community.

Adult Support

Students who have significant special education services during the school day are welcome to attend BHMSD childcare. If a student's needs require an instructional assistant to be with the student during the school day to ensure their health, safety, and emotional needs, the childcare director will initiate an Individual Childcare Plan (ICP) evaluation followed by a parent meeting. The ICP will allow the director to determine if staff will be required during the course of the student's stay at childcare. If additional staff is needed to ensure safety and well-being of the child, a service charge not to exceed the cost of the additional services will be added to each session attended as agreed upon in the ICP for that child. The ICP form is included in the handbook. The evaluation will take place over several days and a meeting will be held prior to additional charges being assessed. If the parent is in agreement to the terms of the ICP, the additional charges will be started at that time. If the parent does not agree with the terms of the ICP, the child will not be able to attend the BHMSD Childcare Program. It is our goal that all students receive the support needed to be successful in the childcare setting.

Medical Treatments

There are times when a student does not need continual adult support throughout a childcare session, but medical treatment may require that the childcare worker is away from their regular duties for more than five minutes. Examples might include: tube feeding, catheterization, etc. In these cases, an ICP will not be initiated, but the parent will incur a \$5/treatment charge as additional staff will be required to allow the childcare worker to meet the medical needs of the child. If the child has a medical condition that requires a registered nurse be PRN (on-call), a service charge not to exceed the cost for PRN services will be added to each session attended for that child as agreed upon in the ICP for that child.

Please answer the following questions:

1. Does the child have an IEP during the school day that requires additional adult assistance throughout the day? YES or NO
2. Does the adult assistance relate to health/safety/emotional needs of the child? YES or NO
3. Is the adult assistance during the school day extensive, meaning more than in a small group setting, but requiring 1:1 support for the child? YES or NO

If the answers to the three questions indicate the need of support of an adult during childcare sessions, we will complete an evaluation of the student in the childcare setting. This evaluation will include:

1. Observation of the child during the school day
2. Observation of the child during childcare
3. Parent interview to discuss the needs of the child including any medical needs
4. Teacher interview to understand the needs of the child
5. School nurse interview to understand the health needs of the child

After these things are completed, a meeting will be held to review the results and recommendations for childcare services. If the services include adding staff to the BHMSD childcare program, the parent will be notified and charges will be assessed.

Charges include:
